PRINTED IRON

Door Collection

These unique sliding Glass barn doors are made from Novomat Acid Etched glass with a digitally printed Iron pattern. With printed iron, we are able to achieve the elegance of an iron door without the added weight or maintenance of a real iron door. The iron print is fused to the glass door during the tempering process, making these doors highly durable. These doors are custom made to fit any size door opening up to the maximum size allowed.

PRINTED STONE

Door Collection

The Bevel King Printed Stone collection utilizes cutting edge technology to digitally print beautiful and highly detailed stone patterns directly to the glass. With printed stone, we are able to achieve the dramatic beauty of a stone door without the added weight or maintenance of real stone. The stone print is fused to the glass during the tempering process, making the print permanent and the door highly durable. These doors are custom made to fit any size door opening up to the maximum size allowed.

SofTones™

Door Collection

These unique sliding Glass barn doors are made from heavy glass with a digitally printed SofTone™ color. With the printed SofTones™, we are able to achieve the unique look of a color tinted glass door with the safety of tempered glass. The SofTone™ print is fused to the glass door during the tempering process, making this door highly durable. These doors are custom made to fit any size door opening up to the maximum size allowed. These SofTone™ colors are also available to be printed on our Pattern Glass Barn Door collection as well.
