

DSA PORT COLLECTION

Impact-Rated Wood Doors

Welcome Home

Nothing feels more like home than the warm welcome of a wood door. For generations, homeowners have invested in wood doors because of their capability and dependability.

Also for generations, the team at DSA Doors has produced superior wood doors. Because secure entry doors are a must for coastal homes, we've tested and engineered our Port Collection to bring DSA's signature quality and protection to your coastal home.

PROTECT YOUR COASTAL HOME WITH DSA IMPACT DOORS

DSA's Port Collection delivers excellent safety, security, and style to modern and traditional coastal homes. Coastal homeowners require high-caliber protection against hurricanes without sacrificing aesthetics. DSA's Port Collection has been engineered to withstand extreme weather conditions in High Velocity Hurricane Zones (HVHZ) and provide additional security to your home.

Through rigorous testing, our Port Collection has been certified for HVHZ with a Design Pressure (DP) Rating of +/- 70psf. We are proud to announce that our Port Collection Doors have been proven to withstand direct impact with large wind-borne debris (TAS 201: Large Missile Impact), Air & Water Infiltration, Positive & Negative Design Loads (DP70), and Forced Entry Resistance.

-  ASCE 7-05 Hurricane Prone Region
-  ASCE 7-10 Hurricane Prone Region
-  Wind-Borne Debris Region
-  High Velocity Hurricane Zone

Premium Hurricane Protection

DSA's impressive collection of Port Collection door styles includes square and arch tops, single and double doors, with both inswing and outswing options. Our Port doors are 2 ¼" thick, made exclusively with premium Meranti Mahogany, and feature 11-ply panel construction for maximum durability. For additional stability, the top and bottom of each door is reinforced with steel bars.

In addition to our protective construction features, our Port Collection doors are equipped with an Ashland Multipoint Locking System to provide increased performance in everyday life and extreme weather conditions.

Ashland Multipoint Locking System details:

- Made of Stainless Steel for superior corrosion resistance.
- Extends the full length of the door with 1" top and bottom shoot bolts for extra security and structural integrity.
- Handleset lever must be rotated up 35° to fully engage the shoot bolts into the header and sill.
- Both Active & Passive locks are included for Double Door Impact Rated units.
- Passive lock requires the shoot bolts to be fully engaged in order to deadbolt the Active panel.

SHOOT BOLT & METAL BARS

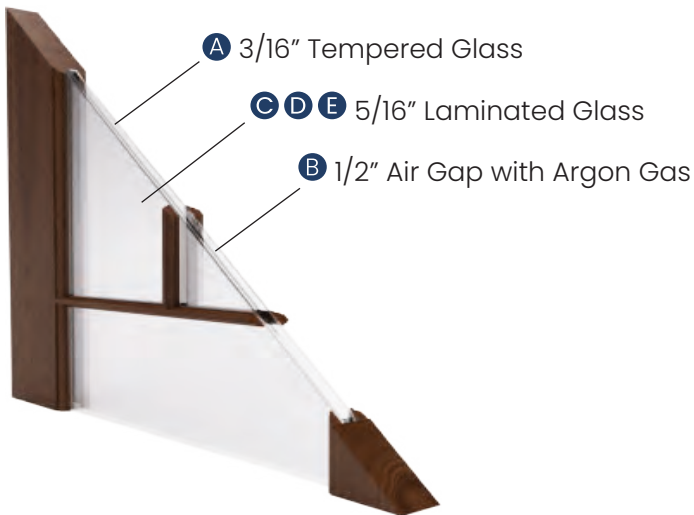

Clear Laminated Impact Glass

Our Port Collection features high-quality Clear Laminated Impact Glass to ensure maximum protection. For added design flexibility, Port Doors are constructed with Mahogany SDL (Simulated Divided Lite) grids applied to the exterior surface of Impact Glass.

Our 1" thick insulated safety glass will remain secure in the frame and continue to protect against infiltration, even if damaged, due to its SentryGlas® ionoplast interlayer.

PORT DOOR CUSTOMIZATION OPTIONS

We believe that Impact doors should be as beautiful and customizable as they are strong and protective. With our Port Collection doors, you can choose from a wide range of aesthetic options to compliment your traditional or modern home.

Standard Options

- Artisan Pre-finishing
- EMTEK® Lever Handlesets
- Brickmould and Casing selections

Custom Options

- Premium Impact Glass styles
- Shadow Bars
- Personalized sizes

Brickmould & Casing Options

Each Port Collection door is offered with our classic 180 brickmould. You can select a different brickmould style, or add interior casing, for an additional charge. Contact your DSA Dealer for more information.

180 (1^{1/4} x 2")

S4S (1^{1/8} x 3^{1/2}")

Williamsburg (1^{1/4} x 3^{1/4}")

RB3 (1^{1/4} x 3^{1/2}")

445 (3/4 x 3^{1/2}")

470 (1 x 3^{5/8}")

Lafayette (1^{5/8} x 4^{5/8}")

Hardware Options

DSA offers EMTEK® Configuration #4 Lever Handles, compatible with our Port Collection's Ashland Multipoint Active & Passive Locking System.

Handlesets are available in your choice of Satin Nickel or Black finish. Double door Port Collection configurations will require both Active and Passive handlesets.

CUSTOM IMPACT DOOR OPTIONS

At DSA Doors, we produce an impressive selection of fully custom doors, and the following selections can be made to our Port Collection doors. Extra charges and lead times will apply. Contact your DSA Dealer for further information.

Custom Impact Glass Styles

Custom glass styles are available to compliment your home, providing a personalized flair. Shadow bars can also be inserted in the glass to give the appearance of classic divided lites.

Custom Impact Doors

DSA's Custom Designers can provide a wide range of Impact options to fit any coastal home. From custom sizes and lite designs, to custom timber and decorative elements, DSA can bring your inspiration to life. Work with your DSA Dealer to begin the process of designing your custom impact door.
